

-MOD YOUR PARADIGM-

2012

COME JOIN US!

What is it?

Transformation at its best. BYOL (Bring your own lunch) and learn what your beliefs and views really are as you experience a different look on your everyday life, thoughts, behavior, reactions, and actions. Shift your paradigm to benefit your personal and professional life. This is for all ages, all ranks, all AZNG members.

Mod Your Paradigm will feature videos that touch on valuable insights of inclusion, micro-inequities, micro-affirmations and the things that we say and do on a daily basis. It is an insight to the lives we live, why we think the way we do, and gaining a different perspective that is beneficial to you.

Knowledge is power and you can take advantage of expanding your inter and intrapersonal skills while making the shift.

You and I are not wrong... we see things differently. We may have different solutions that are both effective for the same problem. Our perceptions may be different, but, if we are willing to communicate, understand, and listen, we can create the opportunity to foster respectable relationships. Otherwise, we can stare at the same picture and argue until we are blue in the face that the drawing is of a rabbit; while the other argues, it's a duck!

Facilitate Change

Promote growth in your personal and professional life. Take your perspective outside the box and learn what your beliefs, ethics, and moral values are.

Learning and growing is fostered and limited by you. Facilitate the change you want and modify your personal and professional paradigm. This may be the shift you were looking for.

What is your perception?
